

Summary on Energy Reduction Performance at the TWGHs Administration Headquarters (2019/2020)

TWGHs has launched the Green Organisation Campaign for years and actively implemented 7 green strategies. The TWGHs Administration Headquarters as a green role model of the Group had conducted the following energy saving measures and activities in 2019/2020:

- Implementation of ISO 50001:2011 energy management system
- Implementation of ISO 14001:2015 environmental management system
- Implementation of TWGHs Green Workplace Guidelines
- Replacement of chiller plants
- Modernization works for cargo lift
- Monitor lux level of the building and conduct de-lamping if necessary for energy saving purpose
- Training sessions for the management and security staff members to enrich their energy management knowledge
- Signed-up Energy Saving Charter 2019 and 4T Charter
- Signed-up Charter on External Lighting
- Participation in Earth Hour 2020

A comparison of electricity consumption at the TWGHs Administration Headquarters is tabulated below:

Performance Indicator:	Electricity Consumption
Electricity consumption in 2019/2020 compared with 2018/2019:	-1%
