

## Medical Equipment Donation Scheme 2016-17 (For Community Services)

Tung Wah Group of Hospitals (TWGHs), since its establishment in 1870, has upheld its mission “To heal the sick and to relieve the distressed; to care for the elderly and rehabilitate the disabled; to promote education and nurture the youngsters; and to raise the infants and guide the children.” After more than a century, TWGHs has now become one of the most sizeable leading charities in Hong Kong, providing a full range of medical and health, education and community services along with its long established free medical services for the underprivileged.

With more than 200 community services centres, TWGHs aim at providing a spectrum of social welfare services catering to the needs of the elderly, the disabled, families, children and youth in accordance with the main theme “Quality Care, Holistic Development”. In response to the growing demand for elderly services, TWGHs strive to provide quality community support services, as well as comprehensive care and rehabilitation services for elders in need. TWGHs are also committed to providing services for the development of physical, mental and social capabilities of the disabled through day training and rehabilitation services, to enhance their integration into the community. In addition, TWGHs provide a wide-range of children and youth services, specialized counselling as well as family services and adopt the concept of medical community social integration, which help promote child, youth development and family well-being.

We cordially solicit your support to our Medical Equipment Donation Scheme (for Community Services). Your donation enables us to enhance the medical facilities and allows us to provide a more comprehensive medical care and attention for the elderly, disabled and youth.

All direct expenses of the Scheme have been sponsored by TWGHs Board of Directors and no administrative costs will be deducted from the donations. Your donation will be fully used to finance the acquisition of medical equipment which will directly benefit the needy.

We look forward to your generous support.

(Katherine MA)  
Chairman  
Board of Directors

◆ The rehabilitation treadmill and wheelchair funded by donors provides rehabilitation exercise for the needy and act as a transportation device for fragile elderly to enable them participate in centre or social activities.
